

ACA compliance can be puzzling.

Let us help you put it all together!

Standalone ACA or Integrated HRIS Solution:

You choose whether to implement the entire platform, or just use what you need!

1094/1095 Coding:

Automatically generates ACA coding requirements and maps them to the proper forms.

Flexibility:

Easily integrates with existing systems; accepts files from multiple sources; and provides flexible file formats.

iNavigator ACA Compliance Dashboard

Data Storage & Maintenance:

House all the necessary employee data for eligibility tracking & in the case of an IRS inquiry or audit.

Form Printing & Distribution:

Not only are forms filled out, they are also printed and distributed to the right people at the right time.

Dedicated Service & Personal Support:

We believe the people behind the automation are just as important as the technology itself.

WHAT OUR CUSTOMERS ARE SAYING

We surveyed our clients who used the iNavigator ACA Compliance Dashboard in 2015 to find out what they think about the service they got from us. Here are a few highlights:

“Marshall & Sterling's ACA program was easy to implement and painless to maintain. Compared to the program we started with it was a joy! We always felt confident that we were following the ACA regulations with Marshall & Sterling's support.”

Human Resources Director, Educational Institution

“ACA compliance added reporting requirements and compliance monitoring at a time when we as a not-for-profit business lost some capacity due to funding cutbacks. The iNavigator ACA Dashboard and the support from Marshall & Sterling helped us deal with both.”

Executive Director, Community Action Agency

“This was a very positive experience for us this past year. We had only one [IRS] kickback due to a name issue. No other concerns came to the forefront. We were/are extremely happy to be using this service!”

VP of Human Resources, Architecture/Engineering Firm
